Industry Expertise

- Utilities
- Banking & Finance
- Telecom
- Logistics

Roles performed

- Leadership Roles
- Transformatie Manager
- Programma & Project Management
- Consultant, Coach and trainer

Topics of interest

- Digitale Transformatie
- Artificial Intelligence
- Future of Work
- Innovation
- CSRD

Agenda

13:30 -14:30

Future of Work Vision

- 1.1 FOW Jobs
- 1.2 FOW Trends
- 1.3 FOW Impact Analysis (E)

14:30 - 15:30

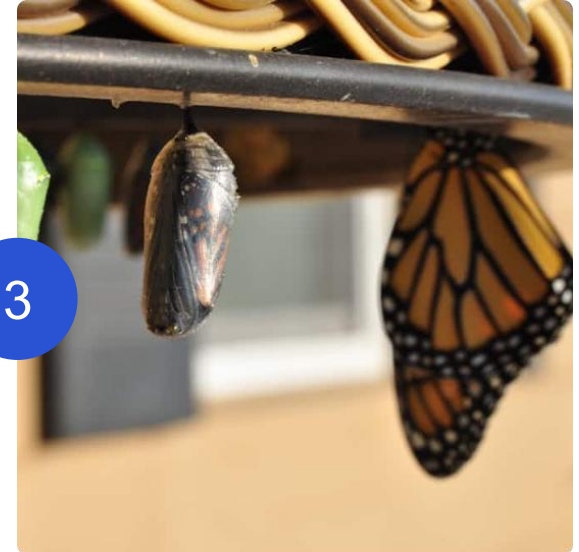

Future of Workforce

- 2.1 Purpose
- 2.2 Future Skills & Tooling
- 2.3 Your Job of the Future (E)

15:30 - 16:30

Future of Work Transformation

- 3.1 FOW Transformation
- 3.2 Digital Skill Enablement
- 3.3 Your FOW Approach (E)

Your expectations

What do you want to learn
about the Future of Work?

1.1 Future of Work Jobs

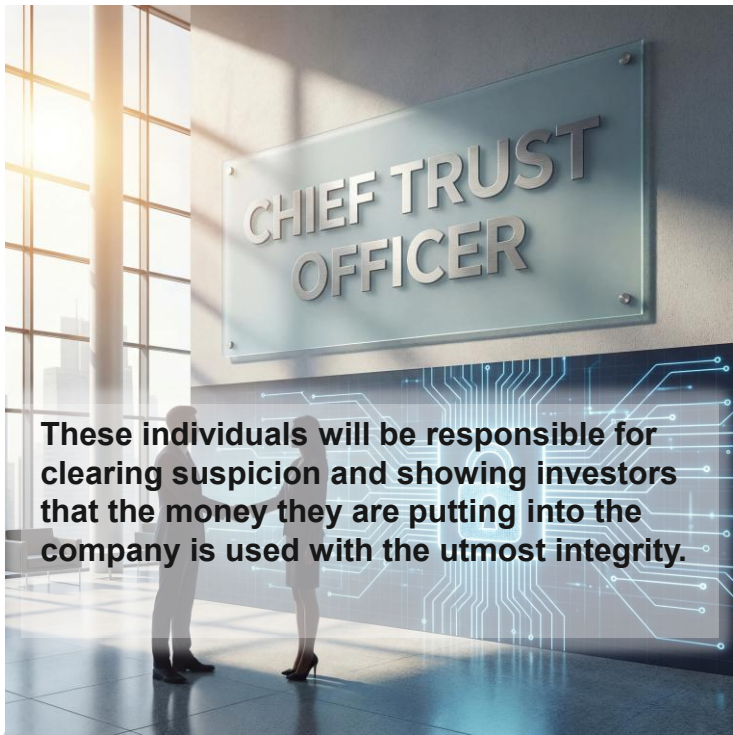

How does your job of the future look like?

1.1 Future of Work Jobs – Dilemma

What job do you prefer in 2027?

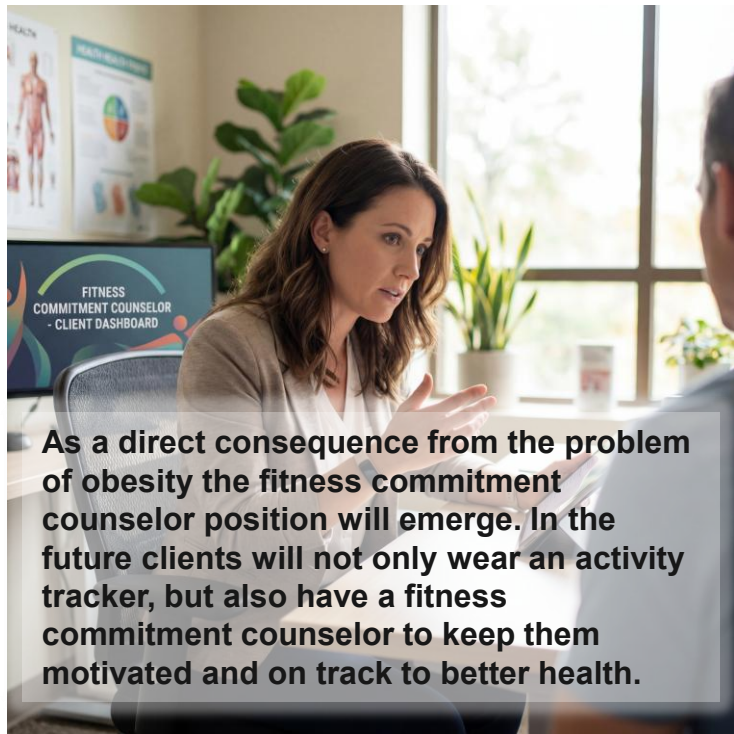

Chief Trust Officer

These individuals will be responsible for clearing suspicion and showing investors that the money they are putting into the company is used with the utmost integrity.

When?	2027
Social value (1 – 10)	8
Financial Reward (1 – 10)	2
Work with others (1 – 10)	7
Fun (1 – 10)	8

Fitness Commitment Counselor

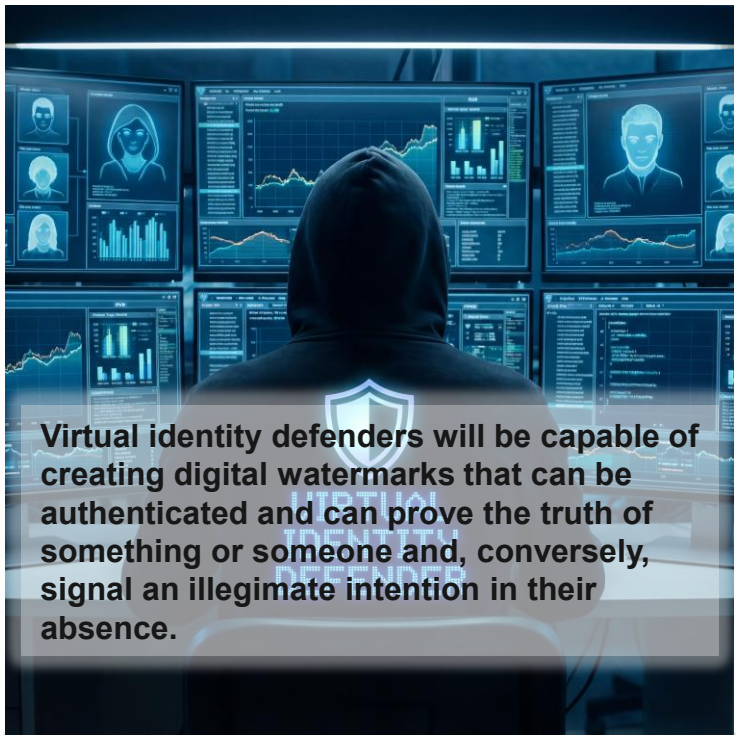

As a direct consequence from the problem of obesity the fitness commitment counselor position will emerge. In the future clients will not only wear an activity tracker, but also have a fitness commitment counselor to keep them motivated and on track to better health.

When?	2027
Social value (1 – 10)	8
Financial Reward (1 – 10)	2
Work with others (1 – 10)	10
Fun (1 – 10)	7

1.1 Future of Work Jobs – Dilemma

What job do you prefer in 2030?

Virtual Identity Defender

Virtual identity defenders will be capable of creating digital watermarks that can be authenticated and can prove the truth of something or someone and, conversely, signal an illegitimate intention in their absence.

When?	2025
Social value (1 – 10)	5
Financial Reward (1 – 10)	2
Work with others (1 – 10)	4
Fun (1 – 10)	4

Rewilder

Rewilders are the radical transformers who will potentially turn a concrete jungle into a green belt. They will focus on undoing the blight of two centuries of industrial revolution, replacing aging factories and unneeded buildings, roads, and fences with forests and native species

When?	2030
Social value (1 – 10)	8
Financial Reward (1 – 10)	4
Work with others (1 – 10)	6
Fun (1 – 10)	5

1.1 Future of Work Jobs – Dilemma

What job do you prefer in 2035?

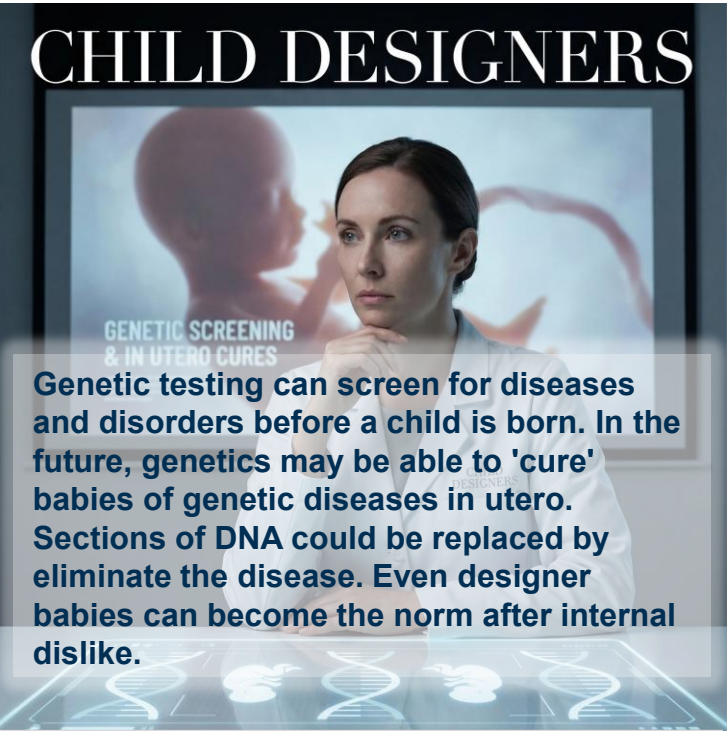

Mind Transfer Specialist

With advancements in neuroscience and technology it might be possible to upload a human mind to a computer. Specialised computer chips could provide benefits such as telepathy, enhanced memory and paralysis treatments. Memory Surgeons may be able to remove negative memories or treat depression and other psychological illnesses

When?	2035
Social value (1 – 10)	9
Financial Reward (1 – 10)	5
Work with others (1 – 10)	6
Fun (1 – 10)	6

Child Designers

Genetic testing can screen for diseases and disorders before a child is born. In the future, genetics may be able to 'cure' babies of genetic diseases in utero. Sections of DNA could be replaced by eliminate the disease. Even designer babies can become the norm after internal dislike.

When?	2035
Social value (1 – 10)	3
Financial Reward (1 – 10)	7
Work with others (1 – 10)	9
Fun (1 – 10)	4

1.1 Future of Work Jobs - In Practice

The airspace director

What you will do:
Coordinating deliveries with drones

Most important skills from your current position:
Spatial insight, route planning, traffic analysis

New skills you need:
Basic knowledge of drone control and aviation rules

Why you'll like it:
You remain a logistics expert,
but with futuristic technology

Career path:
Growing from drone operator to air logistics coordinator

The city supplier

What you will do:
Solving deliveries in the busy city

Most important skills from your current position:
Route planning, customer contact, solution-oriented work

New skills you need:
Basic knowledge of autonomous delivery technology and customer experience

Why you'll like it:
You provide personal service and remain active in the city

Career path:
Growth from delivery expert to last-mile logistics des

The crisis director

What you will do:
Coordinating autonomous vehicles in case of emergencies

Most important skills from your current position:
Stress resistance, route planning, quick decision making

New skills you need:
Basic knowledge of crisis management and autonomous vehicles

Why you'll like it:
You remain a problem solver, but with
Life-saving impact

Career path:
Growing from transport expert to emergency aid specialist

From driver to fleet commander

What you will do:
Supervise 5-10 smart trucks

Most important skills from your current position:
Route knowledge, troubleshooting

New skills you need:
Basic computing, digital monitoring

Why you'll like it:
All your experience, no back pain

Career path:
Start with 2 trucks, grow to fleet management

The digital cargo monitor

What you will do:
Protect cargo with high-tech security systems

Most important skills from your current position:
Your street smarts, insight into logistics and security

New skills you need:
Knowledge of security technology and digital surveillance

Why you'll like it:
You remain tough, but now with cool gadgets

Career path:
Growth from monitoring to transport security specialist

1.1 Future of Work Jobs - How does your work change?

- **Leadership:** Stronger people focus for leaders
 - Leaders will be supported by decision support
 - Operational management and processes will be automated
 - People development will be done with personalised L&D (AI) tooling
- **Product Development:** Product development will be augmented with help of data and AI tooling
- **Process optimization:** Process tracking, analysis, improvement and automation will be done with help AI Tooling
- **Marketing/Commerce:** One MarCom data driven organization augmented by AI will evolve
- **Customer Experience:** Customer experience and service in/out store will be done with personalized chat bots/agents
- **Corporate Strategy:** Company strategy and underlying market analyses will be supported by AI & agents
- **Change Management:** Change approaches, roadmaps, communication, training will be generated by AI and supported by agents
- **Finance:** Financial reporting and analysis will be generated and performed by fin-agents

1.2 Future of Work Trends - Not to forget

1

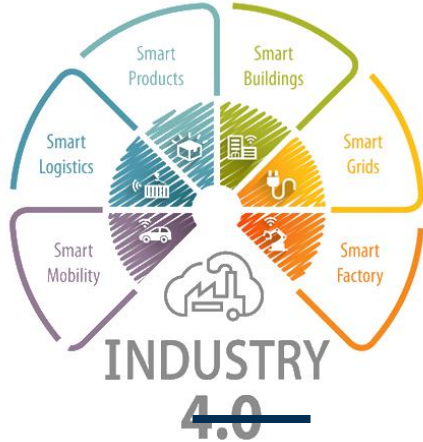

VUCA(P) World

We live in a Volatile, Uncertain, Complex, Ambiguous and Polarised world

2

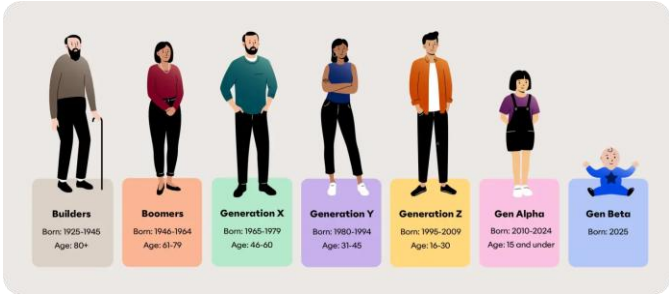

Industry 5.0 (4.0)

AI, Robotics, Connectivity, Quantum Computing will change the way we perceive, live and work together

3

Generation GAPS

Generation are developing faster, sub-generations emerge which result in more generational differences on the work floor

1.2 Future of Work Trends – Not to forget

4

Hyper Flexibilisation

Hyper flexibilization of labour (e.g. time, location, location, contract, human or AI labour)

5

Digital Augmentation

Robotics, fysical tools, algorithms support, augment augment and strengthen your workforce and employees

6

Digital Skill Development

Development of foundational digital/tech, emotional intelligence and leadership skills

7

Up & ReSkilling

Continuous up/re skilling of new skills, competences and technologies

1.2 Future of Work Trends – Not to forget

8

How resilient is
your organization,
team and
yourself?

1.2 Future of Work Trends – Not to forget

1

VUCA(P) World

2

Industry 5.0 (4.0)

3

Generation GAPS

4

Hyper Flexibilization

5

Digital Augmentation

6

Digital Skill Development

7

Up & ReSkilling

8

Resilience

1.2 Resilience Challenge – In practice

Fysieke Resilience: Werk samen met je lichaam, niet ertegen.

Modern werk eist zijn tol - gespannen schouders, vermoeide ogen, te veel zitten, te weinig beweging. Deze stroom biedt praktische strategieën om de fysieke slijtage van bureauwerk tegen te gaan, zodat je lichaam je ambitie kan bijhouden.

Mentale Resilience: Blijf geaard in een wereld die nooit stopt.

Van constante meldingen tot digitale overbelasting, moderne stress ziet er anders uit - en zit diep. Hier richten we ons op hulpmiddelen om focus te versterken, druk te beheersen en rust te vinden in de chaos.

Digitale Resilience: Blijf online veilig, scherp en in controle.

Nieuwe technologie biedt kansen, maar vraagt ook om bewustzijn en vaardigheid. In deze stroom leer je hoe je digitale ontwikkelingen kunt omarmen én technologie veilig, effectief en met vertrouwen inzet in je werk.

Professionele Resilience: Groei mee met verandering - zonder je voorsprong te verliezen.

Het tempo van de veranderingen vraagt om meer dan alleen nieuwe vaardigheden - het vraagt om slimmere ontwikkeling. Deze stroom helpt je in te schatten waar je staat, wat de volgende stap is en hoe je scherp kunt blijven in een veranderende wereld.

Loopbaan Resilience: Je pad kan veranderen - en nog steeds vooruit leiden

Of je nu je richting heroverweegt of reageert op een disruptie, loopbaanverandering is niet langer een uitzondering. Deze stroom helpt je een stap terug te doen, opnieuw te evalueren en een toekomst tegemoet te gaan die bij je past.

1.3 Exercise - Future of Work Impact Analysis

Trend	Beschrijving	Kans (1-5)	Impact (1-5)	Beschrijving van impact
Trend 1	VUCA(P) World: Highly volatile, uncertain, ambiguous and polarised world			
Trend 2	Industry 5.0 (4.0): AI, Robotics, Connectivity, Quantum Computing Computing will change the way we perceive, live and work together together			
Trend 3	Generation Gaps: Generation are developing faster,sub generations emerge which result in more generational differences on the work floor			
Trend 4	Hyper Flexibilization: Hyper flexibilization of labour (e.g. (e.g. time, location, contract, human or AI labour)			
Trend 5	Digital Augmentation: Robotics, fysical tools, algorithms support, augment and strengthen your workforce and employees			
Trend 6	Digital Skill Development: Development of foundational digital/tech, emotional intelligence and leadership skills			
Trend 7	Up & Reskilling: Continuous up/re skilling of new skills, competences and technologies			
Trend 8	Resilience: Resilience and dealing with changing geopolitical geopolitical circumstances			

Agenda

2.2 Future of Workforce

Which skills show a uplift or drop in working hours already

Top Uplifts

- 1) Creativity
- 2) IT skills and programming
- 3) Digital and engineering skills

Top 5 Drops

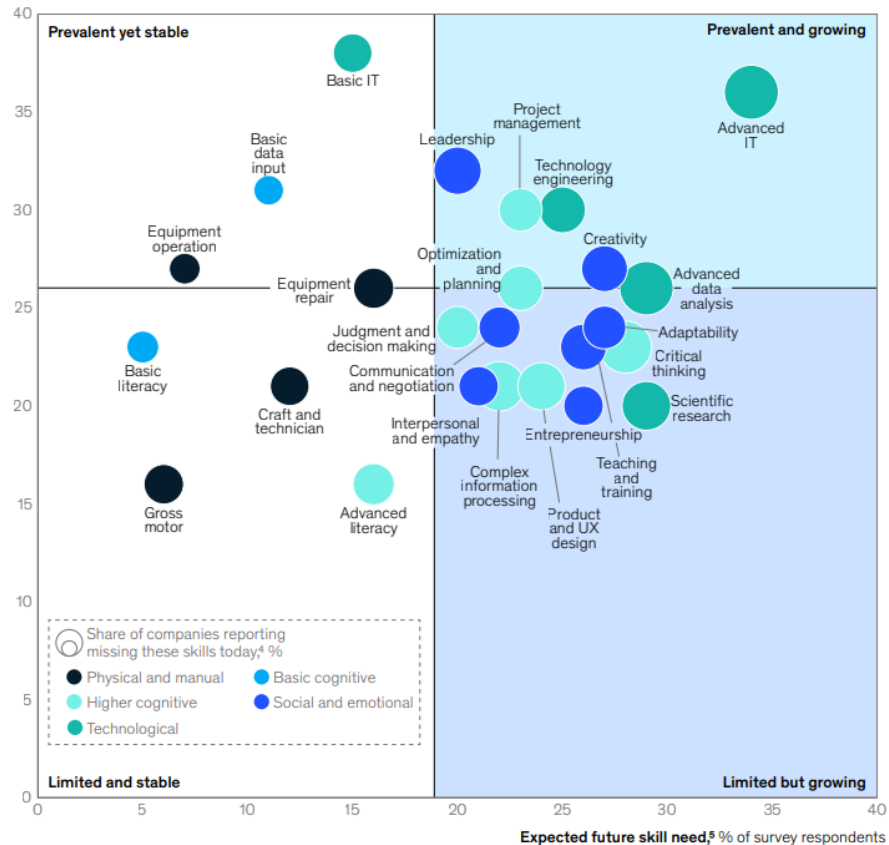

- 1) Advanced data analysis and mathematical skills
- 2) Advanced literacy, language processing skills
- 3) Quantitative and statistical skills
- 4) Basic data input and processing
- 5) Basic literacy, numeracy and coms

2.2 Future of Workforce

Which skills become prevalent and are growing

Skills¹ of today vs skills of tomorrow in Europe² and the US, %

Most widely used skills today,³ % of survey respondents

Prevalent and growing skills

- 1) Technological skills
- 2) Higher cognitive functions
- 3) Social emotional skills

2.2 Future of Work Skills - Top 10 fastest growing skills

Top 10 skills of 2025

- Problem-solving
- Self-management
- Working with people
- Technology use and development

WEF Future of Jobs 2020 report

- Analytical thinking and innovation
- Active learning and learning strategies
- Complex problem-solving
- Critical thinking and analysis
- Creativity, originality and initiative

Future of Jobs Report 2025 Top 10 fastest growing skills by 2030

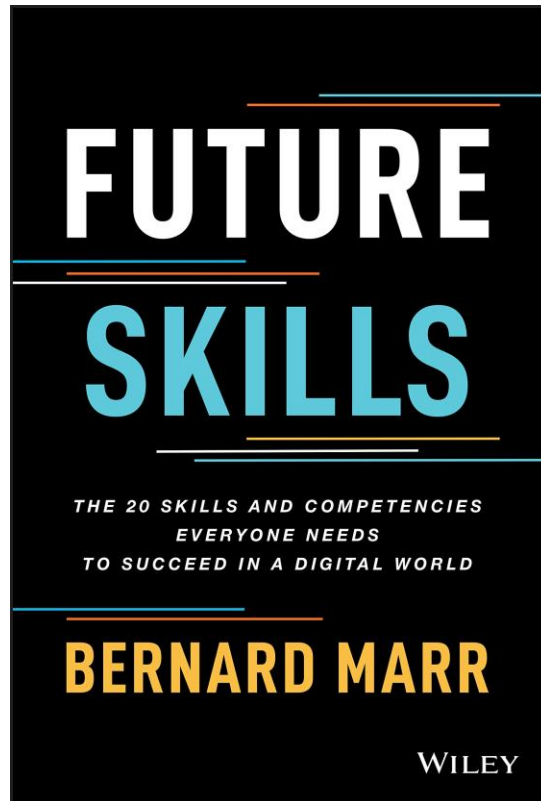

- AI and big data
- Networks and cybersecurity
- Technological literacy
- Creative thinking
- Resilience, flexibility and agility
- Curiosity and lifelong learning
- Leadership and social influence
- Talent management
- Analytical thinking
- Environmental stewardship

Cognitive skills Self-efficacy Working with others Management skills Technology skills Ethics

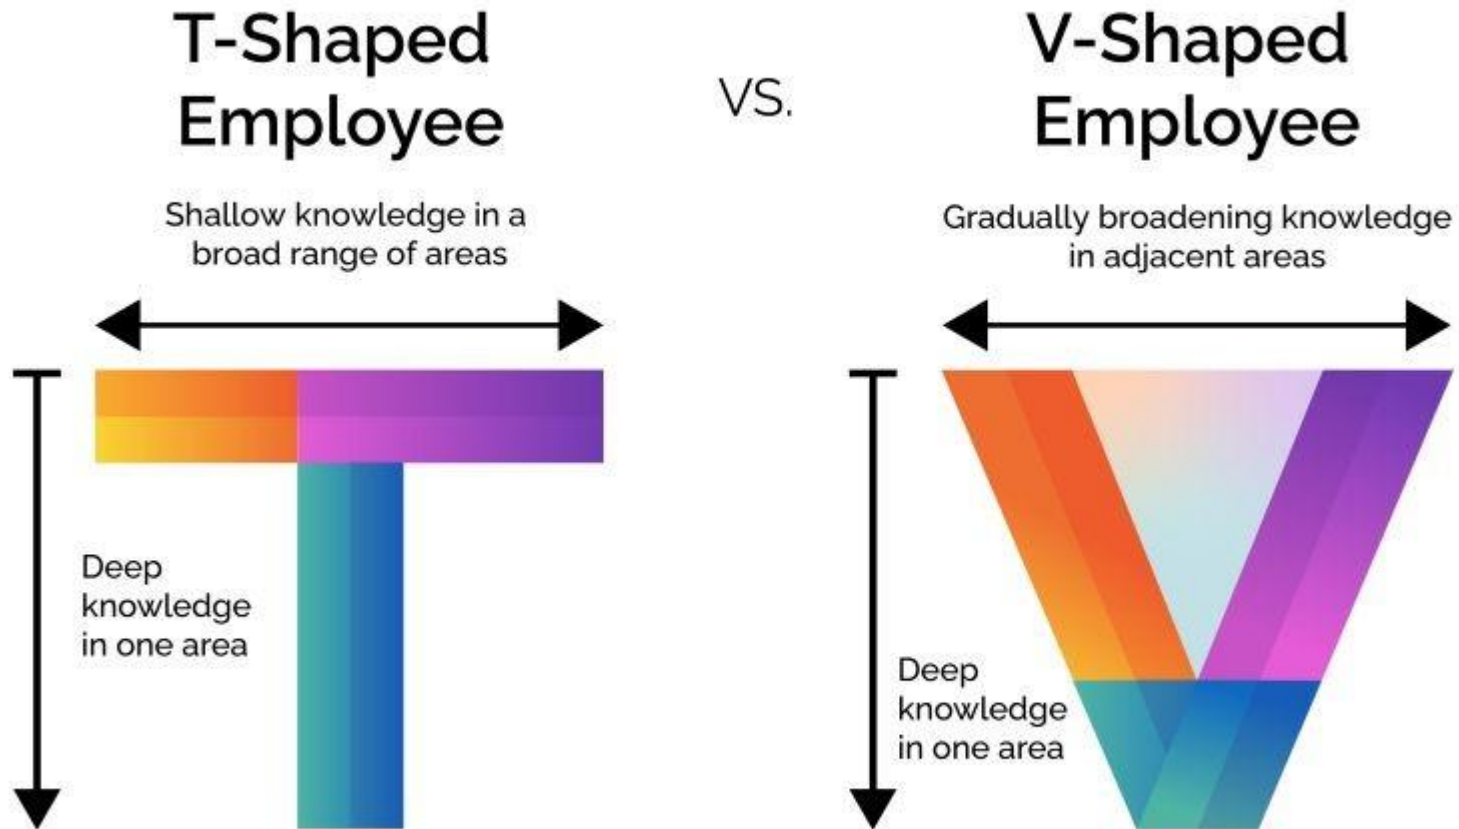

Note: The skills selected by surveyed organizations to be increasing most rapidly in importance by 2030.
Source: World Economic Forum. (2025). *Future of Jobs Report 2025*.

2.2 Future of Work Skills - Top 10

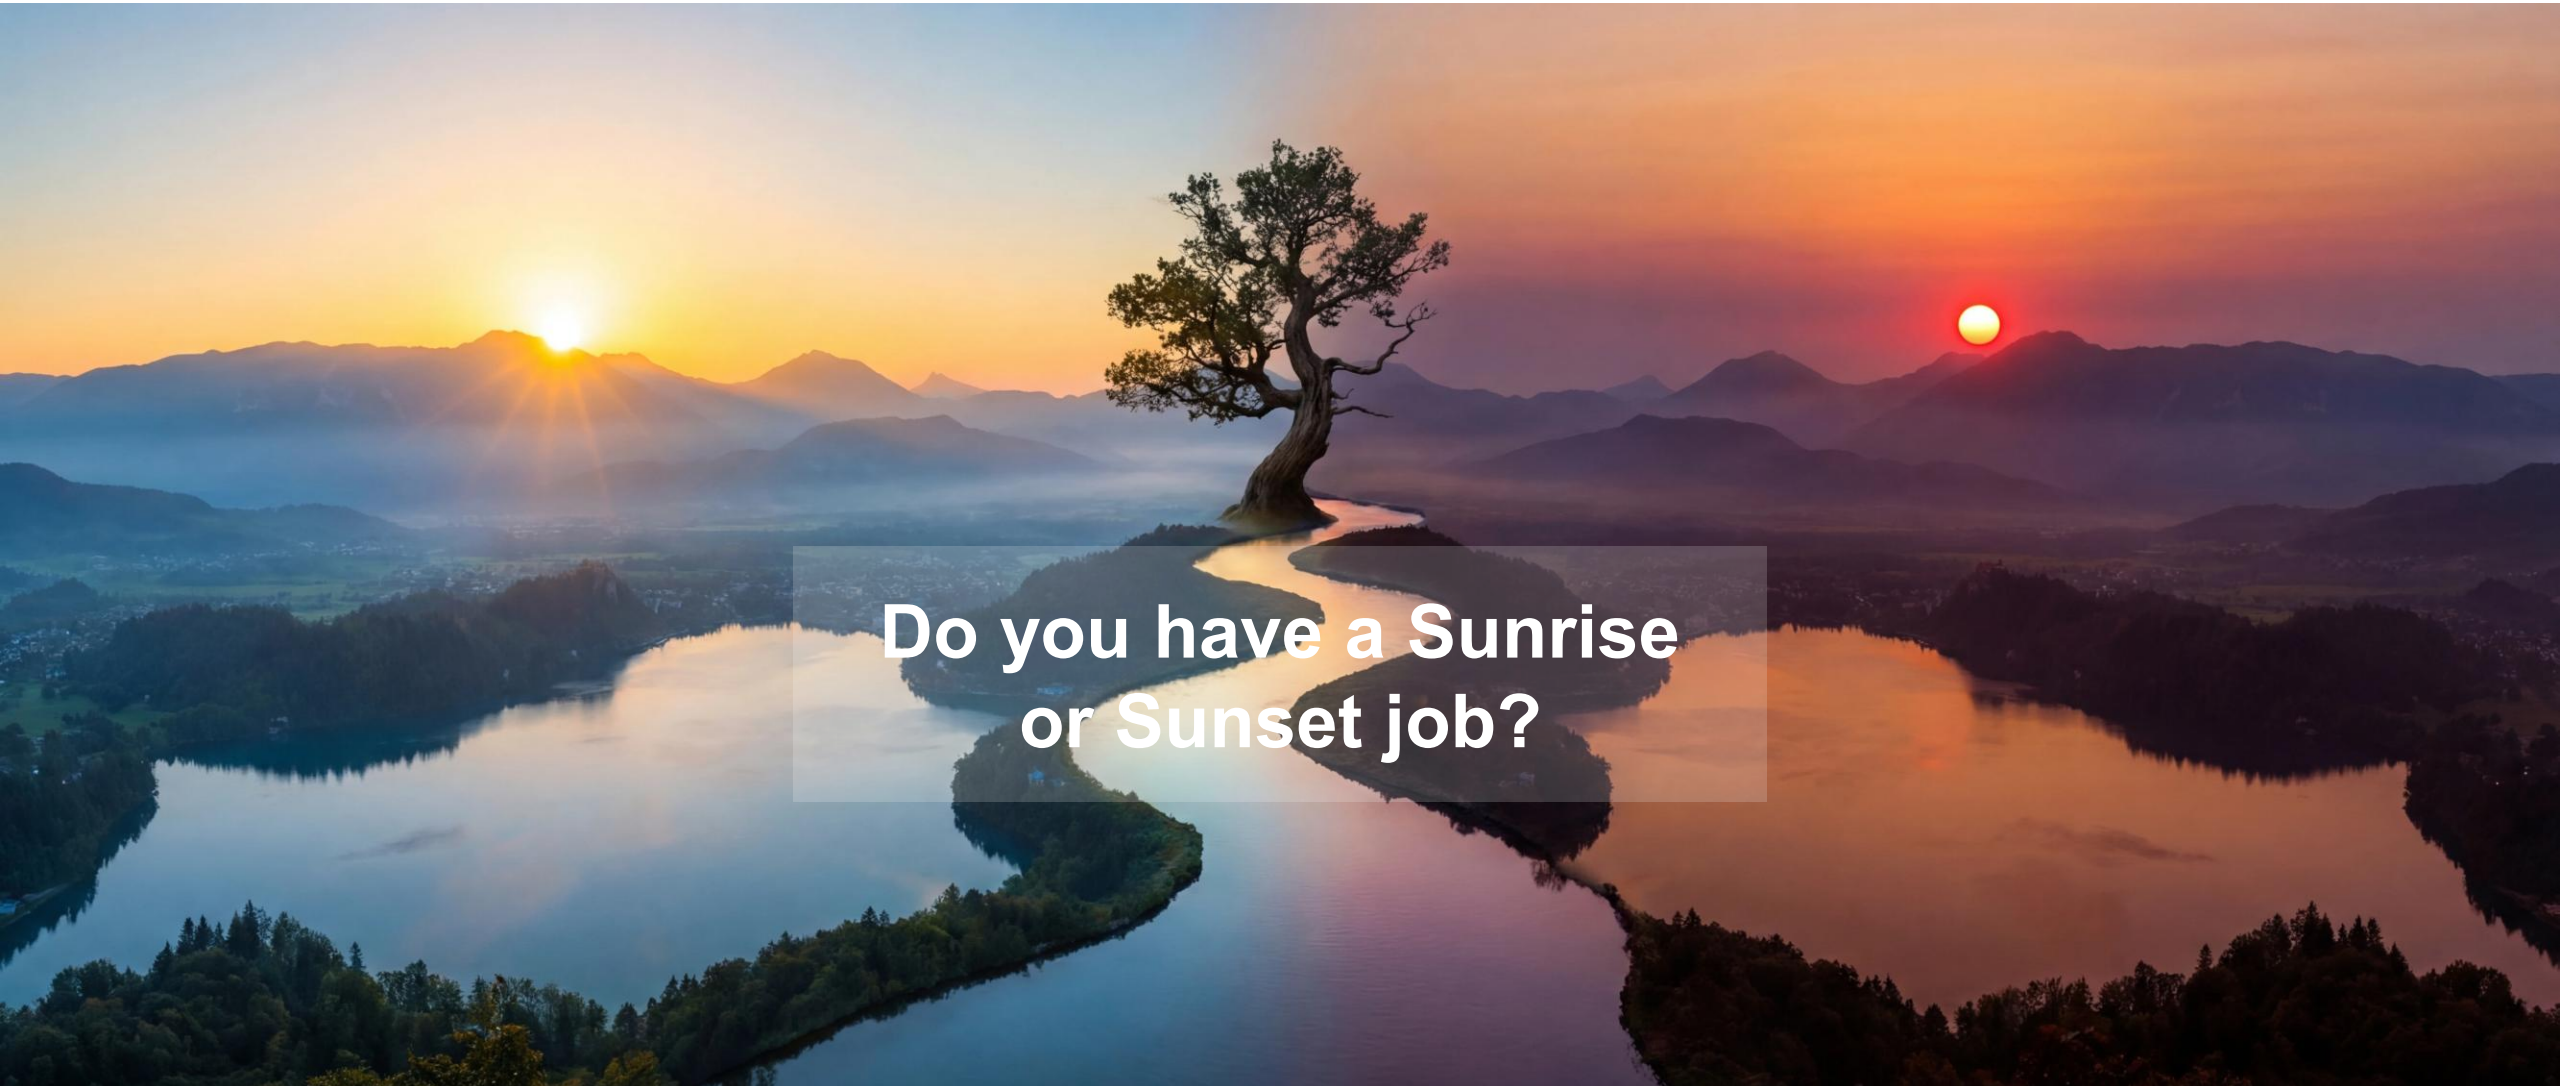

1. Digital literacy
2. Data literacy
3. Technical skills
4. Digital threat awareness
5. Critical thinking
6. Judgement and complex decision making
7. Emotional Intelligence
8. Creativity
9. Collaboration and working
10. Interpersonal communication
11. Working in gigs
12. Adaptability and flexibility
13. Cultural intelligence
14. Ehtical awareness
15. Leadership skills
16. Brand of you and networking
17. Time management
18. Curiosity and continual learning
19. Embracing and celebrating change
20. Looking after yourself

2.2 Future of Work Skills – T versus V shaped

2.3 Exercise A - Your Job of the Future

Do you have a Sunrise
or Sunset job?

2.3 Exercise A - Your Job of the Future

How does your job of the future look like?

2.3 Exercise A - Your Job of the future

Job Analysis of Senior Manager 2030

- Prompt 1: What are the key activities of a senior manager
- Prompt 2: You are a HR expert. Have a break. Could you describe the future state of each activity in 2030 including the difference from how the current activity is performed in 2024. Please display the results in a table. No yapping.

Job Analysis of Programme Manager

- Prompt 1: You are a HR expert. Have a brake. What are the required skills of a programme manager in 2030. Include the difference in skills compared with 2024. And formulate and action how a programme manager can acquire the required skills in 2030. Please present the outcome in table format. No yapping.

Activity	Future State in 2030	Difference from 2024
Strategic Planning and Execution	AI-driven tools for real-time data analytics will enable continuous, adaptive strategic planning.	Current planning is periodic and human-led. In 2030, it will be continuous and AI-assisted, with faster iteration cycles based on predictive analytics.
Team Leadership and Development	Virtual and hybrid leadership models will dominate, supported by AI-based coaching and leadership analytics.	Leadership will shift to managing global remote teams with advanced AI tools, compared to the current focus on in-person team management and traditional coaching.
Financial Oversight	Autonomous AI systems will handle budget management, forecasting, and real-time financial insights.	Today's senior managers oversee manual budgeting and financial reporting; by 2030, AI will automate much of this, allowing managers to focus on strategic decisions.
Stakeholder Management	Advanced communication platforms and VR will allow real-time, immersive interaction with global stakeholders.	Current communication relies on video calls and email. In 2030, immersive technologies like VR/AR will facilitate deeper stakeholder engagement across borders.

2.3 Exercise B - Your Job of the Future

2.3 Exercise B - Your Job of the Future

Future Ready Skill Framework

Select the top 3 skill you have to develop in the coming 3 years to stay relevant now and in the future?

Critical & Creative Thinking	Digital & Technology Skills	Human-Centric Skills
 • Problem Framing • Systems Thinking • Analytical Reasoning • Conceptual Modeling • Creative Thinking • Scenario Thinking • Sensemaking • Decision Making under Uncertainty • Reflective Thinking 	 • Digital Literacy • Data Literacy • AI Literacy • Human-AI Collaboration • Generative AI & Prompting • Automation & Process Thinking • Cybersecurity & Privacy Awareness • Digital Ethics & Governance • Low-Code/No Code Tooling • UX & Digital Design Thinking 	 • Self-Awareness • Emotional Intelligence • Psychological Safety Creation • Active Listening • Clear & Impactful Communication • Collaboration & Co-Creation • Feedback Literacy • Resilience & Stress Regulation • Inclusive & Ethical Awareness • Influence without Authority 

Agenda

13:30 -14:30

Future of Work Vision

- 1.1 FOW Jobs
- 1.2 FOW Trends
- 1.3 FOW Impact Analysis (E)

14:30 - 15:30

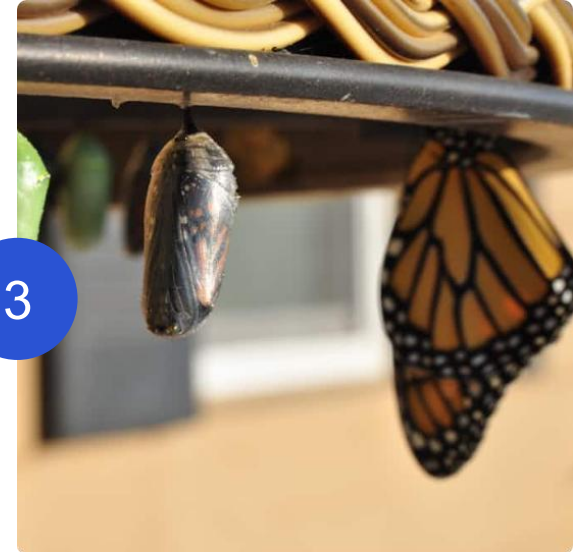

Future of Workforce

- 2.1 Purpose
- 2.2 Future Skills & Tooling
- 2.3 Your Job of the Future (E)

15:30 - 16:30

Future of Work Transformation

- 3.1 FOW Transformation
- 3.2 Digital Skill Enablement
- 3.3 Your FOW Approach (E)

3.1 FOW Transformation - Cockpit

1

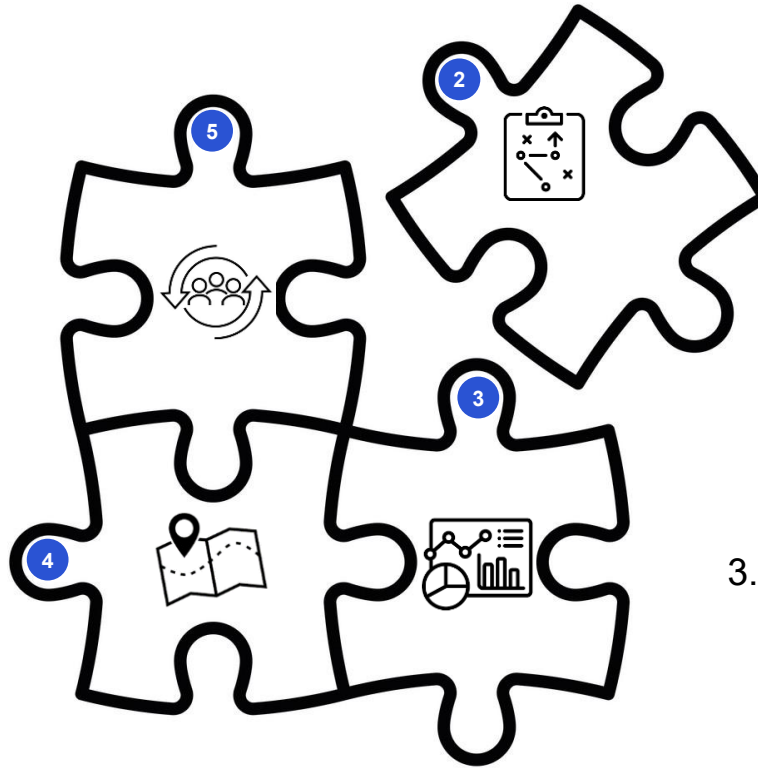

1. FOW Vision

5. FOW Coalition

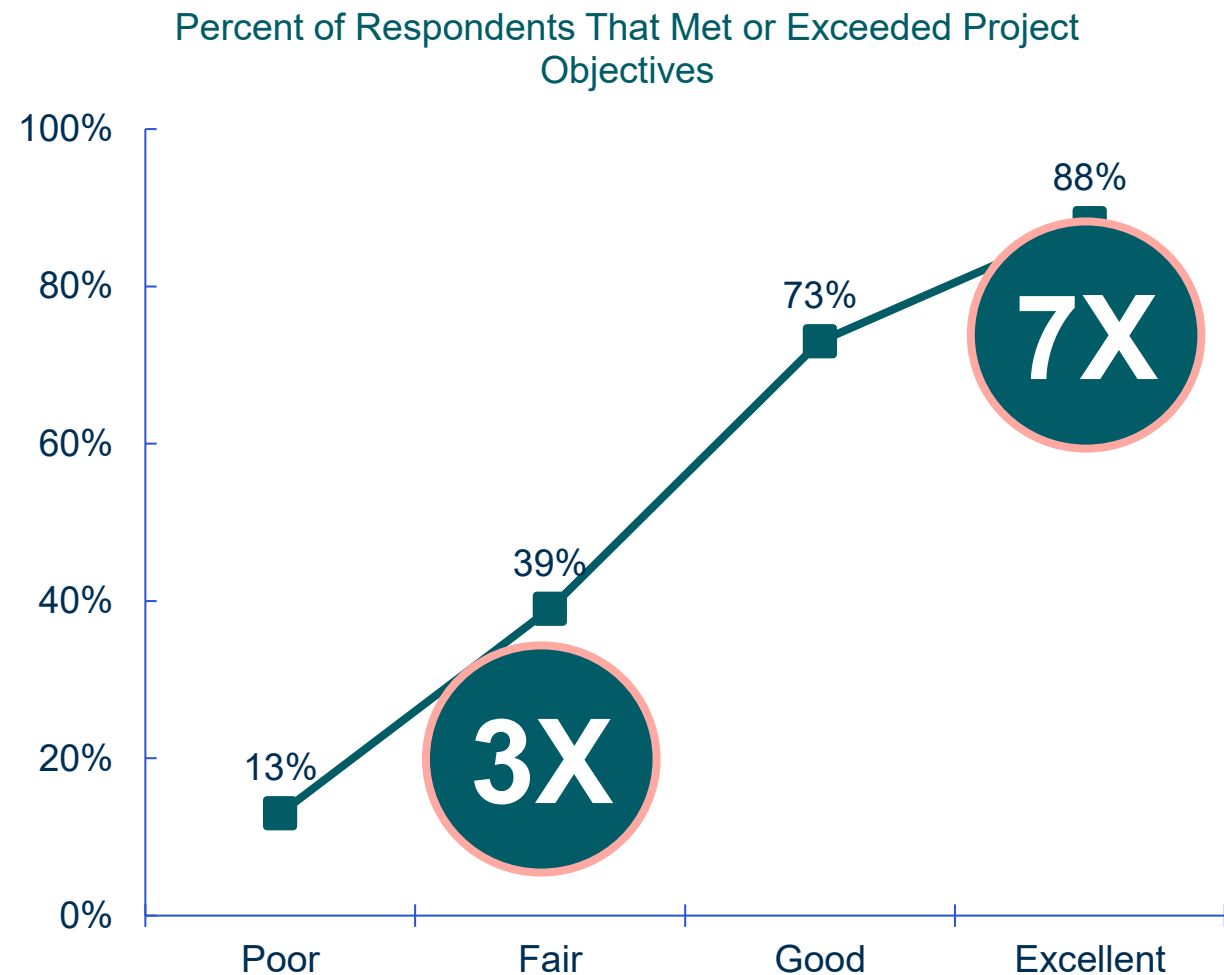

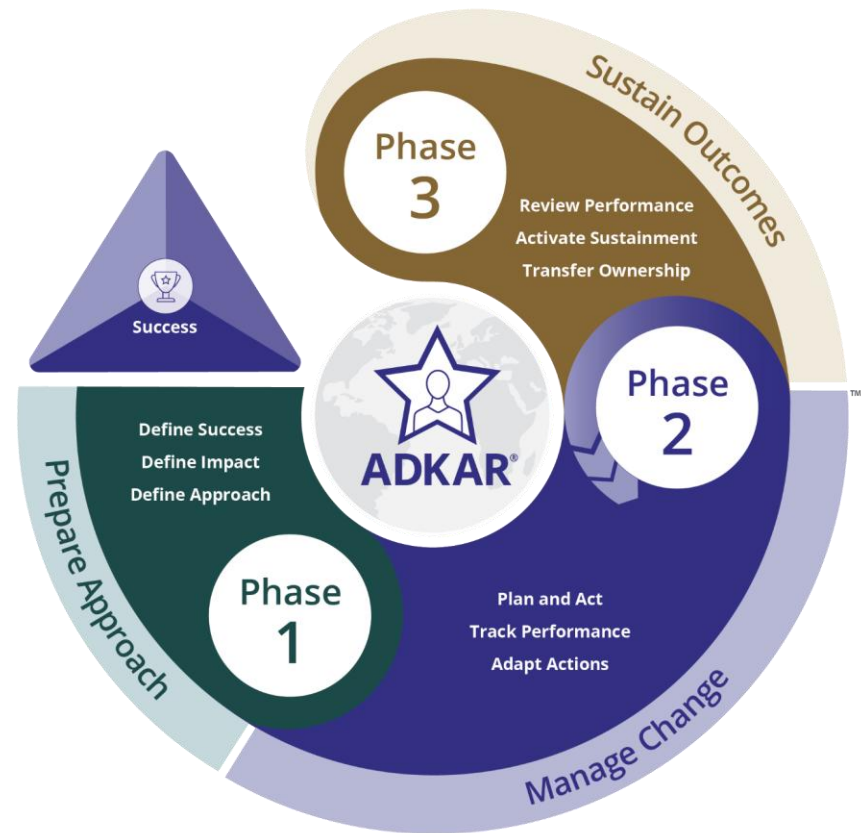

2. FOW Strategy

4. FOW Roadmap

3. FOW Dashboard

3.1 FOW Transformation - Change Management

3.1 FOW Transformation - Change Management

Speed of Adoption

How **quickly** are people up and running on the new systems, processes and job roles?

Ultimate Utilization

How **many** employees (of the total population) are demonstrating “buy-in” and are using the new solution?

Proficiency

How **well** are individuals performing compared to the level expected in the design of the change?

3.3 Exercise - Your Future of Work Approach

- What is the impact of the FOW trends on your organization?
- What future skills should your organisation develop?
- How does your organization acquire these skills?

Discuss the outcome with the group?

Closing - Key take Aways

09:30 -11:00

Future of Work Vision

1

Identify the FOW trends
and impact for your
organization

11:00 - 12:00

Future of Workforce

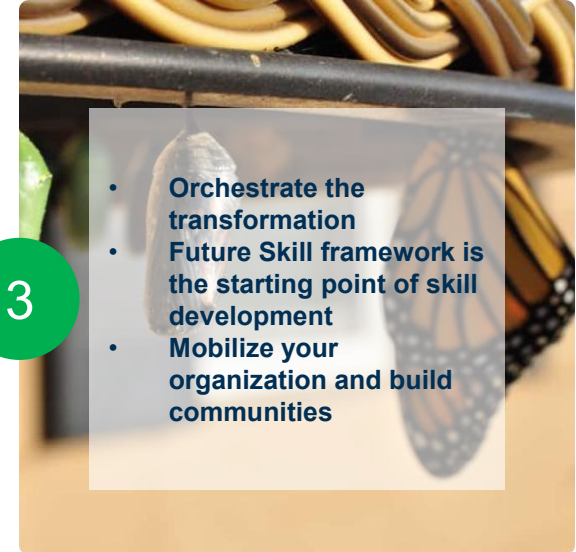

2

- Develop a FOW vision
- Identify the future skills of your organization
- Select the tools to boost productivity

13:00 - 14:30

Future of Work Transformation

3

- Orchestrate the transformation
- Future Skill framework is the starting point of skill development
- Mobilize your organization and build communities
